Once the cancellation request is received, the subscription duration will cease from that day. Refunds are generated on a pro rata basis. For example, if you registered on the 1st of the month and request to cancel on the 14th of the same month, you will receive half of your initial subscription back.

I can confirm that there is no cancellation fee, and you shall not be charged after a cancellation.

Intellectual Property

If a client is found too or attempts to sell my intellectual property as their own, this will result in immediate cancellation of subscription, removal of service and no refund.

Legal action will be taken against any client selling or attempting to sell my intellectual property.

This includes posting my intellectual property into other paid and free horse racing services.
